MEMORANDUM FOR ACQUISITION WORKFORCE

SUBJECT: Assistant Secretary of the Navy (Research, Development and Acquisition) Operational Focus Areas and Tactical Approaches for 2022 Mission Accomplishment

Operational Focus Areas:
1. Promote best practices from industry and government in our Acquisition processes.
2. Deliver resilient software capability at the speed of relevancy.
3. Improve our world-class workforce by enhancing diversity and talent.
4. Build and sustain relationships and capabilities with international partners and other services.
5. Accelerate the adoption of new technologies into our Fleet through a continuum of operational experimentation and prototyping.

2023 Commander’s Intent for the Naval Research Enterprise
RADM Lorin C. Selby, Chief of Naval Research

1. Drive and Administer a Robust S&T Portfolio to Achieve Excellence: We align and apply the NRE’s 6.1 through 6.3 research portfolio to Fleet/Force needs today and tomorrow as driven by our Strategic Focus. This year we will:
   • Deploy the SCOUT initiative to prototype and demonstrate the “Small, Agile and Many” value and deliver those scalable capabilities to warfighters.
   • Promote the Decision Superiority INP seedling and present INP options to the ONR Portfolio Council in early 2023.
   • Ensure the Basic Applied Research (BAR), Tech Candidate (TC), Innovative Naval Prototype (INP), Future Naval Capability (FNC), and Expeditionary portfolios feature a strategic focus and use data analytics; modeling, simulation, and analysis; and experimentation to capture naval needs, inform decision-making, and address naval problems or requirements.
   • Promote the Global Engagement Plan as a means to energize the international S&T community, identify ingenuity, build partnerships, leverage resources, and strengthen relationships.
**Office of Naval Research Global (ONRG)**

**MISSION**
Obtain, coordinate & make available worldwide scientific information

**VISION**
Be the partner of choice for S&T leaders

International Science

Science Directors
- Identify disruptive S&T
- Initiate and manage grants
- Link international scientists with NRE
- Provide global presence
- Expand network of global innovators and technologists

Collaboration tools

Global Technology Awareness Visits
Technical staff attend international events and visit international institutions to develop access and discover cutting edge S&T

Visiting Scientist Portfolio (VSP)
Support travel of foreign scientists to the US to socialize new S&T ideas or findings with the Naval Research Enterprise

Collaborative Science Portfolio (CSP)
Support foreign or international workshops and conferences of Naval interest
Access to all papers, proceedings, and registrations

International Research Grant
Support connection of innovative, international S&T to ONR programs and US Pis

Global-X Challenge
Seek potentially game-changing multidisciplinary technology concepts from international research teams

ONR Global provides value to the Navy and Marine Corps by building and maintaining relationships with international researchers, which creates the opportunity for collaboration on naval-relevant technology.
Act as a tech broker linking ONR, NRL, and the NRE with International S&T

Identify disruptive S&T in order to avoid Naval technical surprise

Gain enhanced awareness of S&T through direct, regular contact with international colleagues

Initiate and manage research grants to provide tangible links between foreign scientists and their US Naval counterparts

Provide ONR forward presence with global innovators and technologists

ONRG E&A Mission

Provide decision-quality information through experimentation and analysis to Naval Research Enterprise (NRE) leadership to inform future S&T investments (further development, transition, or divestiture)

ONRG Experimentation and Analysis (E&A)

The Hub for Experimentation

Large Scale Fleet and International Exercises
Fund participation in Large Scale Fleet and International Exercises of NRE technologies

Operational Analysis
Conduct Operations Research to assess military utility of concepts and technologies

Technology Operational Experimentation Events (TOEE)
Conduct experimentation campaigns to solve operational problems leveraging emerging technologies

Making Connections
Maintain awareness and make connections for Navy & USMC experimentation and analysis
**Prototype Development** based on ideas received directly from Sailors on the deckplate and Marines in the field

**Links** warfighters with solutions from the Naval Research & Development Establishment (NR&DE)

**Pulls** S&T ideas from the Fleet and Force for development, rather than pushing technology

**Rapidly** develops and delivers a prototype and demonstrates the solution in an operationally relevant environment
